

## What Business Owners Should Know About the Economic Rescue Plan and Employment Law

The United States Congress passed an over \$2 trillion economic stimulus package offering assistance to tens of millions of Americans affected by COVID-19. Its components include stimulus payments to individuals and businesses, expanded unemployment coverage, and different retirement account rules.

Like many other business owners, you probably have questions about whether the passage of this legislation impacts your business and what actions to take.

### Common Questions:

- Does my business qualify for stimulus assistance?
- My business qualifies for stimulus assistance. How do I receive it?
- Can I apply my stimulus assistance to any business cost or only to pay employees, a commercial mortgage, rent or utilities?
- Will I be able to delay payroll tax payments?
- I have questions about tax credits for paid sick time.
- What if I need to close my business?
- Are my employees still covered by the company health plan if my business closes?
- Are there extra claims to file if one of my employees tests positive for COVID-19?

### A trusted provider of legal services for nearly half a century.

With over 48 years in business, LegalShield is dedicated to creating a world where everyone can access and afford legal protection. For a low monthly fee, LegalShield gives you the ability to talk to a lawyer on a wide range of business legal matters.
